A big airport at Lydd will affect all of us

Peter Carroll says...

I am fighting as part of Keep the Marsh Special Alliance to stop the expansion of Lydd Airport.

The plans could lead to over 2 Million passengers using the airport – that's a jet flight every 20 to 30 minutes. At local level, this will mean many more jet flights over Folkestone, Hythe, Dymchurch and St Marys Bay. The unique environment of the Marsh will be devastated.

The expansion will bring pollution, noise, traffic congestion. Aviation is the fastest growing source of the gases that add to global warming.

If you share my aim of stopping this expansion I need your help!

Dear Sir/Madam,

I wish to object to the above referenced planning application.

The proposed expansion of Lydd Airport will lead to many thousands of extra car journeys through Shepway. There could be a jet flight flying low over Folkestone, Hythe, Dymchurch, St Marys Bay, New Romney and Lydd as often as once every 20 minutes degrading the quality of life of thousands of Shepway residents with noise and pollution.

Further, aviation is the fastest growing source of greenhouse gases now commonly acknowledged to be causing climate change.

Additionally, I believe that this planning application has implications beyond Shepway and therefore should be the subject of a public inquiry,
