## Road Safety Action for the Black Bull Road Area

28 July 2006

Dear Neighbour,

As you will know, there has been a long running campaign by local residents to try to get speed calming measures for **Black Bull Road** and **Pavilion Road**.

Black Bull Road is a real accident black-spot, with regular accidents and at least one fatality.

As you may have seen in last weeks Herald, Peter Carroll was approached by local residents, and has helped get some action by getting a new "Slow Down" sign erected in Black Bull Road. However, more is needed, and more pressure needs to be put on Kent County Council to make our roads safe – now.

The Herald ran a petition last week, calling for speed reduction measures in the area. Many thanks to all those who have signed and returned it – every additional signature will help. **If you have not already returned it, we have reproduced the form below – please take a few seconds to complete and return the form.**

Thanks in advance – lets work together to make the area safe for local residents and road users alike.

Regards,

Peter Carroll, Maureen Speller and Troy Scaum  
Lib Dem Foord Ward Action Team

.....

**I would like to offer my support to the Herald's campaign for speed reduction measures along Black Bull Road and Pavilion Road.**
